

Why You Need ABLOY® PROTEC High Security Locks

- UL437 listed
- ISO 9001 Quality
- ISO 14000 Environmental

- High security since 1907
- Hundreds of models

SECURE The heart of the lock is the cylinder mechanism. The Abloy Protec rotating disc cylinder is so unique that it is patent protected worldwide.

PATENT PROTECTED key control - keys so unique they cannot be duplicated without your registered signature.

PICKPROOF The disc cylinder resists all attempts at picking, manipulating or bypassing.

STRONG hardened steel housing resists all attempts of physical attack.

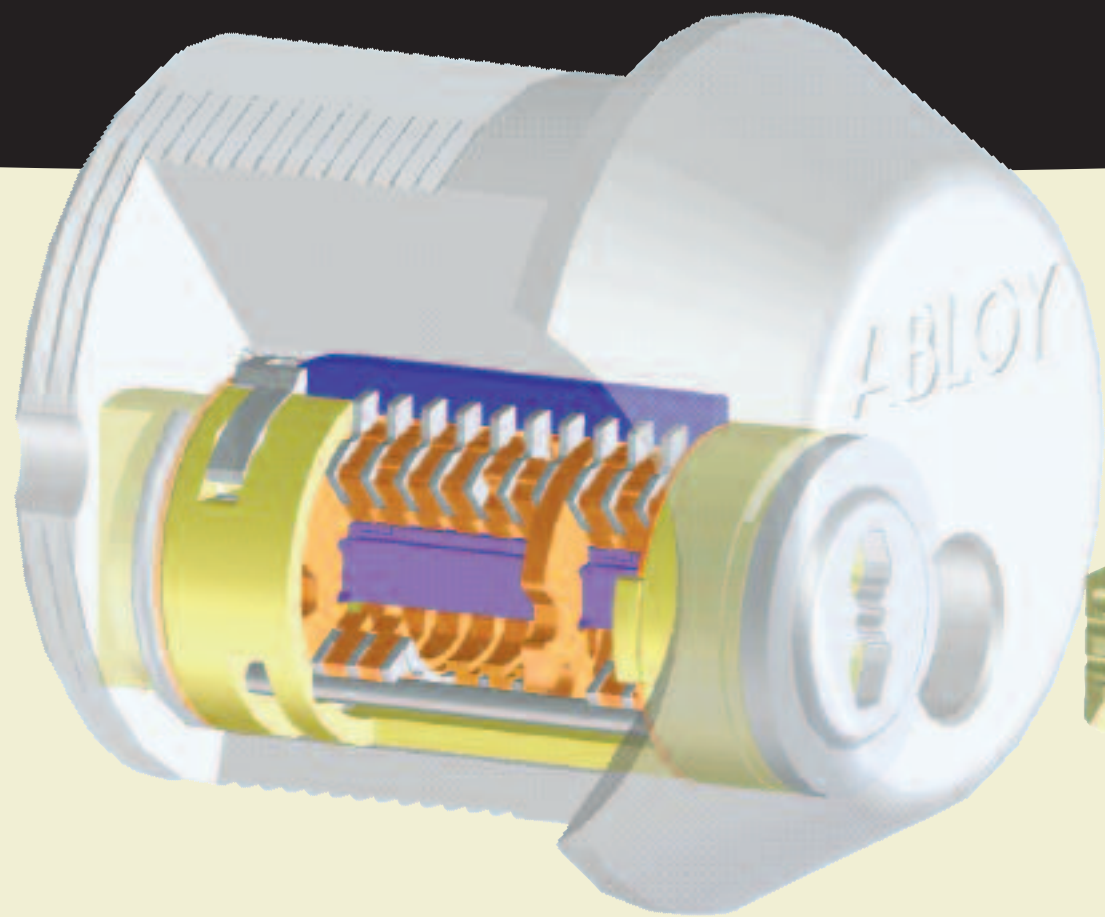

NO SPRINGS means there is no wearing, jamming or freezing.

TWO BILLION combinations guarantees that no key combination will ever be duplicated and allows for large and extensive Master Key systems.

ONE KEY opens a full range of locks. No need to carry many keys, one Abloy Protec key can open your home and your office.
